

MAYSVILLE, KENTUCKY, THURSDAY, MARCH 5, 1914.

ONE COPY—ONE CENT.

Hello, Trouble!

A crowd of troubles passed him by as he with courage waited.

He said, "Where do you troubles fly when you are thus belated?"

"We go," they said, "to those who mope,

Who look on Life dejected,

Who weakly say good-bye to Hope—

We go—where we're expected."

Government reports show the steady output of coal during the last few years has made the dealers push for wider markets. We are going to get more value—your trade—by giving you a greater value for your money. You will never get out of debt unless you buy wisely.

Dressed Pine Lumber \$2 Per Hundred

We now have it. We are positive it will not be sold at this price again during this year. Come and get it while it lasts. This lumber can be used for outbuildings, cheap barn siding or most any purpose except fine fire-broking work. Buy it now. You will need it before you can get it again at this price.

INSURANCE

Twenty-five years ago we paid 75c. per \$100 on a frame building with five coal stoves in different parts of the building. Today on same site, \$2.60 per \$100 on building now of brick and metal, one fire, and heated by steam. Then the city had a volunteer fire department and now a fine up to date paid system and yet look at the increase.

Looking at the changes in our own business every department is from 25 cents to 100 per cent. better and cheaper. Why is Kentucky's insurance rate higher than any State in the Union and 4 per cent. higher than the average for the entire United States and territories.

PIFFLE OUT AT FRANKFORT.

Appropos of the anti-pass legislation of our righteously young legislators, Will Ardery says, in his Paris Democrat:

"Some of our more earnest young men will soon get the idea that they can keep a man from treating a friend to a glass of grape juice, thereby earning a tin medal from the Model License League. Peter Piffle and Alfred Demagogue please step down and out. We have a Legislature on your jobs every minute in the day and at no time before has the work been so thorough."

AGRICULTURAL RANK OF THE STATES.

The relative rank of the first nine States in regard to value of crops showed that Illinois led with a total valuation for all farm crops of \$372,000,000; Iowa was second with \$315,000,000; Texas third with \$298,000,000, followed by Ohio with \$230,000,000; Georgia \$227,000,000; Missouri, \$221,000,000; Kansas, \$215,000,000; New York, \$209,000,000; and Indiana, \$204,000,000.

A summary of the relative rank of the States in these 11 leading farm crops shows that New York ranked first in four; Illinois first in two, with Texas, North Dakota, North Carolina, Kentucky, and Minnesota ranking first in one each. Iowa ranked second in three of these above-mentioned crops, with Georgia, Kansas, Ohio, New York, Pennsylvania, North Carolina, California, and Michigan ranking second in one each. Minnesota, Wisconsin, and Virginia each ranked third in two of these crops, with Missouri, Mississippi, Pennsylvania, and Maine third in one each.

HOW TO BE A WEATHER SHARP.

The following formula of weather signs was adopted by the Farmers' Club of the American Institute some years ago and it has been found to give satisfaction:

1. When the temperature falls suddenly there is a storm forming south of you.
2. When the temperature rises suddenly there is a storm forming north of you.
3. The wind always blows from a region of fair weather toward a point where a storm is forming.
4. Cirrus clouds always move from a region where a storm is in progress to one of fair weather.
5. Cumulus clouds always come from a region where a storm is forming.
6. When cirrus clouds are moving rapidly from north or northeast, no matter how cold it is, there will be rain within 24 hours.
7. When cirrus clouds are moving rapidly from south or southeast, there will be a hailstorm on the morrow, if it be in the summer, and if it be in the winter there will be snow.
8. The wind always blows about a storm in a circle; when it blows from the north, the heaviest rain is east of you; if it blows from the south, the heaviest rain is west of you; if it blows from the east, the heaviest rain is south.
9. The wind never blows, even moderately, unless rain or snow is falling within a radius of 1,000 miles.
10. Whenever heavy white frost occurs a storm is forming within 1,000 miles.—Herald Almanac.

THE DAILY NOVELLETTE.

Young Love in Spring.
They loved each other truly;
Yes, truly loved each other;
But still they had a quarrel,
And she ran home to mother.

She was sitting on the fence at 4 in the afternoon (for she was very unconventional) when he stopped below and called to her.

With the memory of his brusqueness the preceding afternoon, she turned away her head without answering. He called again, and still she did not answer or acknowledge that she heard.

Then (for he was a persistent youth) he leaped up beside her and put his face roughly close to hers. With a low sniff she turned her back on him completely, but, taking it as a favorable omen that she remained seated on the fence when she could have jumped down (for she was very agile), he blew softly into her ear.

With an enraged gasp she turned furiously and swiftly and slapped him soundly on the ear.

He was naturally gallant, but the blood of savage ancestors was in him, and he could not take this passively. Turning upon her, he dealt her a blow on the cheek that knocked her clear off the fence.

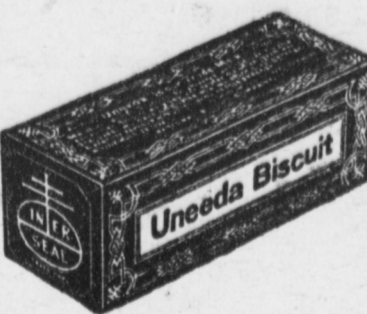

He was sorry as soon as he had struck her, for he was usually noted for his gentleness, but before he could jump down after her and try to make it up she had given him one injured glance and was running quickly across the garden.

Heartily ashamed of himself, he tried to catch her, but she slipped through a little hole in the fence and evaded him.

It wasn't until the next afternoon that the two cats met again.—Louisville Times.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging
Conditions, Mrs. Bullock Gave
Up in Despair. Husband
Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

WOMAN'S RIGHT

To Vote Ably Discussed By President Barker Who Advances Fundamental Reasons For Granting Suffrage to Women.

Following is a summary of the address of President Barker of the State University, on woman suffrage, delivered at Maysville.

The Judge likes to get close to his hearers. He remarked that it was the old lawyer in me makes me get down close to the jury.

He said in part, at the early age of fifteen he became a thorough convert to woman suffrage. He had heard many speeches and read many speeches against woman suffrage, but when it was all summed up he found that it was all summed up in one word—justice. It was the age of chivalry. Prejudices are hard to get rid of. They color our mental perception. As a general rule

we do not control our prejudices, but our prejudices control us. They lie in the human mind and soul. We do not know where they come from or why? There may have been a reason for the prejudice, but it passed away and the prejudice remained.

He illustrated this by the appendix and the hard bony excrescence just below the knee on the inside of the leg of a horse. There was a time when the human family needed the appendix but it had passed away.

He also used the illustration of slavery, how when it existed the South had few books, but in the past 40 or 50 years she had come to the front in all lines of literature.

The illustration showed the advantage of getting the prejudice out of our system. Sweep the cobwebs from your eyes that you may see what the facts are. Face the facts without prejudice.

There might have been some fact back in our history—in the time of the cave man and the stone man, when each man got his wife by force, and held her against all comers. She was his chattel, his property, as long as he could hold her against all others.

The father became the head of the family and around him he settled his sons. He had the right to sell or kill his wife or children and thus he grew up a government.

From the one man and the one woman grew all government. Out of this possession came the thought that "power made right." It originated with the cave man. It came on down to the early Roman Empire.

Christianity elevated woman, but the fathers got up the apple story. Said there was something wrong with woman—this was prejudice.

Then came the feudal days. Woman was no longer a chattel. She was placed upon a pedestal. She was so pure and holy. It was the age of chivalry. And the cavalier comes down to our age when it comes to voting. The position of the woman in the old

English law was that man and woman were one and the man was IT.

In 1894 a man at Lexington was elected to the Legislature for the sole purpose of giving woman her just property rights and she got them.

You say ninety per cent. of the women don't want the vote, you can go back to Rome. Ninety per cent. were against a change. This is because of her loyalty to man.

Is it right that she should bury her talents? If she can do any good in the world, help make a better government, save a drunkard, or close a brothel it is her duty to do it.

It does not matter whether she wants the right or not. It is her right. The question is not what the other woman wants, but what are my rights? Woman is the repository of 999 per cent. of all the virtue.

You say it will coarsen and cheapen woman. Will it? Where you find woman employed you hear no oaths nor off-color jokes. She brings man up; she does not descend to him. The world is never going to be regenerated nor politics purified until woman gets her full rights.

What is politics? The management of your government. Is there anything more ennobling? There is nothing degrading in politics. It is the men who handle politics. Is it not a splendid idea for woman to write, to study or to make a speech about government?

Just a few days ago Mrs. Cora Wilson Stewart swept the State Legislature off its feet. Did it degrade her?

He said we do not say so, but we, the men, are for the brothel, the saloon, the gambling hell, and we know when woman takes hold of these things there will be a change.

Show me a great man and I will show you a great mother.

The mother's knee is the greatest university. This single standard of morality will

not stand the acid test of this twentieth century.

He gave the story of a father, a confirmed drunkard and he when he was on the bench had sentenced the father's two sons and three daughters to the penitentiary. The father did not know or realize he had transmitted his own sins to them.

He closed by this remark: Woman has the right to vote on the principal of Eternal Justice.

Washington.—By a vote of 47 to 14 the Senate refused to table a motion by Senator Ashurst to proceed with consideration of the constitutional amendment to extend suffrage to women.

WILL SOMEBODY PLEASE KILL THE FRUIT CROP.

Won't somebody please stand up and ask about the peach crop? It is almost time for the annual killing of the crop by a freeze. The life of a peach is about a minute, judging from the reports of the croakers who freeze the trees every spring.

INDIGESTION OVERCOME

Overcome By Simple Remedy.

Hurried and careless habits of eating, irregular meals and foods that do not harmonize, tend to weaken the digestive organs and result in different forms of stomach trouble.

If you are one of the unfortunate who have drifted into this condition, eat simple foods only, slowly, regularly and take Vinol, our delicious cod liver and iron tonic.

Mrs. H. J. Smith, Thomasville, Ga., says: "I suffered from a stomach trouble, was tired, worn out and nervous. A friend advised me to take Vinol. My stomach trouble soon disappeared and now I eat heartily and have a perfect digestion and I wish every tired, weak woman could have Vinol, for I never spent any money in my life that did me so much good."

The recovery of Mrs. Smith was due to the combined action of the medicinal elements of the cod's liver—aided by the blood making and strength creating properties of tonic iron, which are contained in Vinol. We will return the purchase money every time Vinol fails to benefit. J. C. Pecor, Druggist, Maysville.

Washington Indorses Removal of 14 Republican "Revenuers" By Collector Ben Marshall.

Washington, D. C.—Senator James and Representative Cantrill were assured by the Commissioner of Internal Revenue that the removal of fourteen men from the office at Lexington by Collector Marshall will be sustained. Representative Cantrill said that he has been assured Collector Marshall was strictly within the law; that the fact the men let out were Republicans, it so, it was due to the fact that practically the entire force was made up of Republicans when Collector Marshall took office.

Changes such as this are made at times, Mr. Marshall says he was informed.

RIVER NEWS.

The Greenwood up this morning.

FEBRUARY WAS A CHILLY MONTH.

The month of February was, on an average, just 6.6 degrees colder each day than it should have been had it acted in a normal way.

The monthly summary by the Weather Bureau shows the average temperature for February was 30 degrees, while the normal is 36.6 degrees.

The highest for the month was 59 on the 6th, the lowest was 3, on the 24th.

JOHN BULL SHIES AT TROUBLE.

London, March 3.—We have no intention of engaging in such a fatalistic attempt as the sending of a force—which, to be effective, would have to be a very large force—into any part of Mexico," said Sir Edward Grey, the British foreign secretary, in Parliament today.

"Under ordinary circumstances" we might have taken action at a port or by way of blockade. Under present conditions if we took such action, and it had any effect, it could only result in giving assistance to the contending party in North Mexico.

DUKE SHOVELS SNOW.

New York, March 3.—The duke of Manchester made a perilous trip out to Lyndonville hall during the blizzard Monday. Several times the machine in which he was being driven was blocked by immense snow drifts. More than once it became necessary for both the chauffeur and the duke to shovel a path through the snow. The trip consumed more than five hours. The duke insisted that he must keep an engagement he had made with friends to view the Widener collection. The chauffeur said the duke tackled the snow drifts and worked like a day laborer.

AND THIS IS "THE BEAUTIFUL SNOW."

New York, March 3.—New York began today to dig itself out of the snow. The weather is fair and the temperature rising. The man with the pick and shovel is the most prominent figure next to the great mound of snow. It is estimated that in New York and vicinity including the employees of the railroads, that an army of 50,000 men is engaged in raising the snow embargo.

Last night at St. Mary's Protestant Episcopal church 250 men were fed and offered work at 20 cents an hour shoveling snow. They refused to work at that price, demanding 30 cents an hour.

GOOD YIELD OF TOBACCO.

(Mt. Olivet Tribune.)
Last year a total of 9,000 pounds of tobacco was raised on the farm of Elijah Mastin, on Bierley Ridge pike. Of this amount, Mr. Mastin's son, Will Mastin, raised 3,915 pounds on 3 acres of land, which he sold to J. J. Hall at 10c straight. He delivered the crop at the Buckner warehouse on Orchard avenue last Saturday. The senior Mastin bought the land on which this tobacco was raised, several years ago, at \$12.50 per acre. It has more than quadrupled in price since that time.

Butter has dropped from 20c to 15c per pound in the local market. But some of it has grown very materially in strength, judging from a cake we landed on a few days ago, which possessed strength and athletic qualities sufficient to run a "hoss race" on circus stilts.

URGES WOMAN SUFFRAGE

Dr. E. L. Powell Gives Big Boost to The Twentieth Century Cause.

Frankfort, Ky., March 3.—Rev. Dr. E. L. Powell, of Louisville, one of the best known pastors of the Christian Church in the South or in the Nation made a powerful appeal for woman suffrage tonight at the suffrage headquarters at the Capital Hotel to which an audience composed of members of the assembly and woman suffrage sympathizers gave the closest attention.

It is generally conceded that Dr. Powell's argument helped the chances of the constitutional amendment the suffrage people are asking the legislature to submit to the voters of the State.

Hervey S. Little and wife were acquitted at Shreveport, La., of the charge of murdering J. J. Vaneleave.

KENTUCKY WOMAN KILLS HUSBAND.

St. Louis, March 3.—Mrs. Ada Owsley shot and instantly killed her husband, Benjamin S. Owsley, formerly of Lexington, Ky., a car worker, following a quarrel at the dinner table in their home, 1219 Warren street, Sunday afternoon. Mrs. Owsley is 36 years old and her husband was 50. A police investigation revealed years of domestic strife.

SOME MORE GOOD DEMOCRATIC JOBS.

Frankfort, Ky., March 3.—After going into a Committee of the Whole to hear Captain W. J. Stone, Pension Examiner, on the merits of the bill of Senator Glenn to create the office of Commissioner of Pensions and to reenact the Confederate Pension Act, the Senate by a vote of 31 to 1 passed the bill. The dissenting vote was cast by Senator Porter.

The bill fixes the salary of the Commissioner of Pensions at \$2,500 and allows \$2,100 annually for clerk hire.

RIVER CAPTAIN LAID TO REST.

Funeral services for Capt. Oliver P. Shinkle, 80, were conducted Monday afternoon at the home of his niece, Mrs. George F. Eaton, 222 Garrard avenue, Covington. Shinkle operated the steamboats, Charles Bodman and Golden Rule, on the Ohio River. Both boats were destroyed by fire. Capt. Shinkle was born at Higginsport, Ohio, 1834. Farmers

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years? Any one expecting to buy farms this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad. It is the Sign of the Times.
